

Sentrallas® Herbicide

Realize broadleaf weed control.

A new, unique, liquid in-crop cereal herbicide that provides tank-mix flexibility for control of your problem weeds:

Designed for superior cereal protection

- Powerful control of key weeds, such as kochia (including ALS resistant), wild buckwheat, redroot pigweed, mustard species, catchweed bedstraw and Russian thistle¹
- Simple to use and easy to handle
- High performance on large weeds including wild buckwheat
- Excellent crop safety over a wide application window
- Unique new liquid chemistry combination from FMC

Valuable resistance-management tool

- Multiple modes of action built in (two different groups, two active ingredients)
- Provides the flexibility to spray early or late and still have powerful control
- Protects your cereal crops to maximize yield potential
- Multiple options for tank mixing
- Flexible crop rotation

Application information

Application timing: 2-leaf to flag leaf²

Rate: 7 fl. oz./A to 14 fl. oz./A³

Rainfast: 1 hour
