

## MEDIA ALERT

### **ANTHEM® MAXX AND AUTHORITY® ELITE HERBICIDES ADDED TO ENGENIA® HERBICIDE WEBSITE AS TANK-MIX PARTNERS**

**WHAT:** [Anthem® MAXX](#) and [Authority® Elite](#) herbicides from FMC have just been added to the Engenia® herbicide [website page](#) as approved tank-mix partners. This is the final step required to allow Anthem MAXX and Authority Elite herbicides as tank mixes with Engenia herbicide when used on dicamba-tolerant soybeans.

FMC herbicides approved for tank mixing with Engenia herbicide include:

- Anthem MAXX herbicide
- Authority® Assist herbicide
- Authority Elite herbicide
- Authority® First DF herbicide
- Authority® MAXX herbicide
- Authority® MTZ DF herbicide
- Authority® XL herbicide

These tank-mix options from FMC provide growers with effective tools to manage difficult weeds and help protect dicamba technologies from resistance selection by reducing the need for multiple in-season applications to control later flushes of emerging weeds.
